WHAT'S NEW?

ANNEX UPDATE Back in January, during a severe cold snap, the heating system failed in the Annex. This caused the pipes, radiators and even the toilets to freeze. The heating system has been repaired but cannot be used because the cast iron radiators have all cracked and need to be replaced. The Trustees are in the process of assessing the damage, getting estimates for the work, and dealing with the insurance company. We apologize for the inconvenience to our craft group. We know how important this space is to you, and we are working as quickly as the process will allow. We will keep you posted! Please feel free to call me with any questions (508-428-7764). - Jeanine Lennon
